

Welcome to 4Born Solutions' OTP API for email verification. This documentation will guide you through the features, setup process, pricing, and refund policy of our API.

1. Features:

Complete Code of API: We provide the full source code of the API, allowing you to customise it according to your requirements.

Your Logo and Branding: We offer the option to incorporate your logo and branding elements into the API, ensuring a consistent user experience.

Server Setup: Our team will assist you in setting up the API on your server, ensuring seamless integration with your existing infrastructure.

Maintenance for 3 Months: We provide three months of maintenance support to address any technical issues or bugs that may arise during usage.

2. Pricing and Refund Policy:

One-time Setup Fee: We charge a setup fee of 6000/- INR for the initial installation and configuration of the API.

Lifetime Usage: Once the API is set up, your company can utilize it indefinitely without any additional charges.

Core Code Modification: Please note that if anyone modifies the core code of the API, we cannot guarantee its proper functionality, and we will not be held responsible for any issues that may arise as a result.

Re Setup Fee: If you require a reinstallation of the API on your server, you will need to pay the setup fee again.

Refund Policy: Once the code is shared and the setup is completed on your server, we do not provide any refunds under any circumstances.

No Reselling: You are strictly prohibited from reselling the code or API to any third parties.

Important Note: The API provided by 4Born Solutions is a proprietary product. While you have a license to use it, you do not have the authority to reuse or resell the code without explicit permission from 4Born Solutions.

For further inquiries and more detailed information about our OTP API for email verification, please contact us at 4bornsolutions@gmail.com.

Thank you for choosing 4Born Solutions for your OTP API needs. We look forward to serving you!
